

Expert Witness Reports

Capability Statement

RMCG has a comprehensive knowledge of many rural industries and processes, which has been successfully applied to a wide range of projects where a client requires an objective, well-reasoned, and technically sound expert witness report.

OUR SERVICES

Our experience is based on a solid understanding of agriculture, environment, communities and industries. This comes from working with farming businesses, community groups, regional organisations, government and businesses.

In addition, we can draw upon a significant network across many fields of expertise, enabling us to undertake a wide range of reports with confidence.

OUR EXPERTISE

- Extensive rural enterprise knowledge based on management consulting work with individual clients and financial analysis of over 2000 farm businesses
- Numerous compensation claims for loss of agricultural production
- Strong irrigation and design skills
- Land disposal for Water Authorities and industry –irrigated wastewater, site sustainability, assessment, design and management across Victoria
- Extensive involvement in environmental design guidelines
- Strong knowledge of surface water systems, groundwater, salinity, nutrients, soils and agronomic issues
- Feasibility studies for horticultural developments in the pome, stone fruit, citrus and almond industries
- Strong knowledge of cropping, livestock, dairy and horticulture enterprises.

Expert Witness Reports
