## ABOUT RMCG

RMCG is a multi-disciplinary consultancy specialising in environment, agriculture and communities. We provide policy, planning and technical consulting services to ensure a healthy future for the environment, industry and communities by helping them to plan and implement change.

Our recycled water and waste management team works with government agencies, water corporations and industry to produce sustainable, viable and practical outcomes for the management of recycled water and wastes. We consider these resources in the context of broader integrated water and land management and apply our skill set to deliver strategies that achieve circular economies.

RMCG has offices in Victoria, Tasmania, ACT and NSW.

## WHAT WE ARE LOOKING FOR

We are looking for a smart, capable and enthusiastic team member with experience and expertise that can be applied in recycled water and waste management.

We are seeking a person who has a minimum of 5 years professional experience and is known for their expertise and depth of knowledge in a particular technical area(s) such as hydrogeology or soil science.

You will have developed a good professional network, where you are well regarded and have strong relationships.

Our preference is for this position to be based in our Bendigo office.

## **PRIMARY FUNCTIONS OF THE POSITION**

Examples of the types of projects we are currently seeking support on include:

- Options analysis, concept design and costing of solutions to ensure sustainable recycled water and waste management
- Development of management plans and procedures
- Development and review of environmental monitoring and sampling programs
- Analysis of soil and groundwater monitoring data.
- Environmental impact or risk assessment
- Supporting our clients to align with regulatory requirements

The successful candidate will possess, or develop, the ability to win project work as well as identify and develop business opportunities.

## **QUALIFICATION REQUIREMENTS**

A degree in science, engineering or a related discipline.

## **KEY SELECTION CRITERIA**

*In your application please describe:*

- Your knowledge and experience in recycled water or waste management
- The area(s) where you have particular technical expertise
- Your experience in preparing clear and succinct written materials for different audiences
- Your skills and experience in building effective working relationships with clients and colleagues

*Other important factors are that you:*

- Are highly self-motivated
- Have a questioning mind and problem solving abilities
- Show attention to detail
- Have the capacity to work within a team, and independently

## **SALARY AND CONDITIONS**

The remuneration package for the position will be negotiated with the preferred applicant.

Our company culture is really important to us. We are friendly, supportive and enjoy coming to work. Our culture is supported by exceptional conditions including lunches every day, paid parental leave, income protection insurance and staff profit share. We value work/life balance and we offer a highly flexible approach to work management.

The position will involve a reasonable amount of travel throughout Victoria and occasionally interstate (a current driver's licence is required).

## APPLICATIONS

To be considered for this position, please send:

- Your succinct response to the selection criteria
- A CV (no more than 2 pages) listing qualifications, previous experience and the names of two referees.
